PC-12 NGX

THE BEST TIME TO FLY THE BEST IS NOW

Introducing the PC-12 NGX which incorporates a wealth of new features that combine to make the third generation of the venerable PC-12 airframe the most advanced single-engine turboprop ever. Building on its outstanding safety record of over seven million flight hours and Pilatus' industry-leading customer support, the PC-12 NGX brings the latest engine and avionics technology to the turboprop market – today. Additionally, Pilatus completely redesigned the passenger cabin with new executive seats and larger cabin windows.

The PC-12 NGX is versatile enough to fly nearly any mission – from executive transport, cargo, air ambulance, and airline or government special mission applications.
