**At CIRRUS, we take pride introducing general aviation to the innovation and technology of the future. Our latest milestone is our all glass cockpit as standard equipment.**

Our glass cockpit features two 10-inch displays. The PFD includes an electronic attitude director indicator [EADI], electronic horizontal situation indicator [EHSI], altimeter, air-speed indicator, vertical speed indicator. The multi-function display [MFD] is a moving map that supports lightning and traffic information. You'll wonder how you ever flew without it.

## FACTORY OPTIONS

Enhance your CIRRUS aircraft with advanced options.

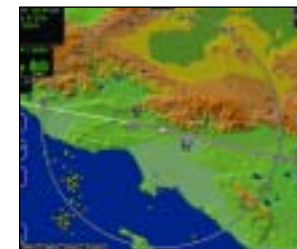

### ICE PROTECTION

The TKS-based ice protection system pumps an antifreeze solution to the leading edges of the wings, horizontal stabilizer and to the propeller. Only available on the SR22.

### ENGINE MONITORING

The FlightMax® EX5000C Emax Engine Monitoring displays engine information, fuel flow and computes nautical miles per gallon, remaining fuel and more.

### STORMSCOPE® and SKYWATCH®

The WX-500 Stormscope® allows you to view lightning strikes on your MFD. Skywatch® monitors the airspace around your aircraft for nearby transponder-equipped aircraft.

## SERVICE CENTER OPTIONS

### SEMI-PORTABLE OXYGEN

Capable of providing oxygen to 17,500 ft, this aluminum cylinder has a 22 cubic feet capacity. It is installed as an arm rest and fixed between the two rear seats with four outlets.

### AIR CONDITIONING

Lightweight 12,000 BTU system, provides cold dry air with its dedicated blower even during ground operations. Approximate added weight is 60 pounds installed. A variable speed circulation blower and ergonomic intuitive controls provide the occupants with the highest level of comfort. Air conditioning is only available for the SR22.
